### **Success Networking At Job Fairs**

Welcome to our Snohomish County WorkSource Job Fairs for 2012! We trust you will find our event a valuable investment in your job search and networking success. Below are some guidelines and reminders that will help you make the most of your time.

**Before:** Research companies prior to attending a Job Fair. Check company websites for open positions, recent press releases and business/philanthropy partners. Tap your social network to see if you can identify folks who currently work there. Google/Bing the company to learn more.

- ✓ Dress for success! First impressions are exactly what they are and will often determine if you move to the next step. Have a brief case, folder or portfolio to hold your resumes, cover letters and reference lists. Wear comfortable shoes!
- ✓ Sharpen your tools! Resumes, profiles, cover letters, work samples and reference lists should be current and flawless. Missing dates, typos or grammatical errors will have the same effect of showing up in jeans and a tee-shirt. Bring complete master application so you have it if you need it. Have plenty of copies on good stock paper.
- ✓ Rehearse your verbal presentations and responses with a friend or in the car on the way there. "Tell me about yourself" "What kind of position are you looking for?" Have good questions for the employers you have targeted.

**During:** Don't be shy! Work the room with the attitude that you will make connections, learn more about companies and opportunities and present yourself with confidence and energy even if your tank is running low!

- ✓ Do not underestimate the value of networking. Take time to talk with other candidates and WorkSource staff especially if you are frustrated and ready to bolt for the exit. People hire people, hard to be successful when you avoid them. Get contact information so you can follow up.
- ✓ Quality is more important than quantity. Do not worry about seeing every employer. Start with the ones of most interest or shortest line. Step out and take a break, reflect and re-charge, then go back in for another round.
- ✓ Check any attitude on filling out hard copy or on-line applications. Employers have their processes for a reason even if it does not make sense to us. Think of creative ways to stand out or go beyond their defined process.

**After: FOLLOW UP!** Less than 5% of job fair attendees follow up after the event. A quick call or simple thank you note is an easy and effective way for you to stand out above the rest.
